ABOUT THE SERIES: **PAINTING THE WEST WITH FRED
OLDFIELD** features the work of western
artist Fred Oldfield. A cowboy, a painter
and an oral historian, Fred depicts in his art
the romantic as well as the disheartening of
life on the western frontier. His art springs
from his own experience and highlights his
love of nature. From the billowing dust of
cattle drives to a lonesome cowboy to the
penetrating cold of a Northwest winter, Fred
captures an intensity of feeling in his
paintings that is only matched by his
extraordinary talent. In this series, he takes
viewers on a personal tour of the west,
demonstrating the special techniques that
have made his western art famous.
